

DEPARTMENT OF BOW AND STRING INSTRUMENTS  
CELLO SCHOOL  
DCPL54-CORSODIDIPLOMAACCADEMICODIPRIMOLIVELLOIN  
CELLO

Training objectives

At the end of the studies relating to the First Level Academic Diploma **in Cello**, students must have acquired knowledge of the techniques and specific skills that enable them to concretely realize their artistic idea. To this end, particular emphasis will be given to the study of the most representative repertoire of the instrument - including the overall one - and the related performance practices, also with the aim of developing the student's ability to interact within musical groups of different compositions. These objectives must also be achieved by encouraging the development of the perceptive ability of hearing and memorisation and with the acquisition of specific knowledge relating to the organisational, compositional and analytical models of music and their interaction.

Specific care must be dedicated to the acquisition of adequate postural and emotional control techniques. At the end of the three-year period, students must have acquired in-depth knowledge of the stylistic, historical and general aesthetic aspects relating to their specific major.

Furthermore, with reference to the specificity of the individual courses, the student must possess adequate skills relating to the field of improvisation. The training objective of the course is also the acquisition of adequate skills in the field of musical information technology as well as those relating to a second community language.

Employment prospects

The course offers the student the possibility of employment in the following areas:

- Solo instrumentalist
- Instruments in chamber groups
- Instrumentalists with chamber orchestral information
- Instrumentalist for symphonic orchestral information
- Instrumentalists for orchestral information for musical theatre

FIRST YEAR
